...until the land is well watered!

Dear Friends,

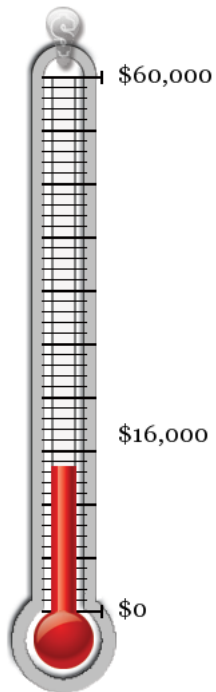

April 21, 2010

Our God is forevermore able! A long while ago, Moses was leading the children of Israel in the wilderness. They were near the present day town of Petra, but then there was no town. There was no water either. The Israelites were thirsty. At God's instruction, Moses whacked a big rock with his walking stick. Water gushed from the rock and satisfied the need.

As you can see in the picture, cool, sweet water is still gushing from the rock. The rock in the upper right is thought to be the very one Moses dealt with!

Our God does not change and He is forevermore able! This time instead of striking a rock, He very gently touched the hearts of some of His children. Funds for books, books containing the life giving message of Salvation and Holy Living have begun to flow. How refreshing to those who are thirsty and in the wilderness! Help us pray that the flow continues until the land is well watered!

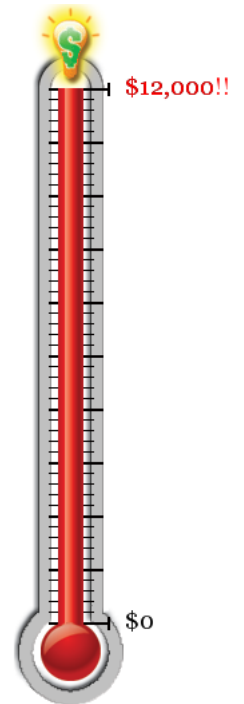

Praise God! The South East Asia project we requested prayer about in our last letter is **fully funded!** Thanks for praying!

The Middle East project: A quarter of a million copies of *Is God Really My Father?* to be spread across this thirsty wilderness! This is a huge challenge for us, but God doesn't seem to have a problem with it! Already \$16,000 of the needed \$60,000 has come in! Please continue helping us pray!

Australia! Gay and I are planning to lead a *Touching Lives for Christ (TLC)* team *Down Under* this June. This is a literature and evangelism trip and the cost is \$2,800. Your prayers are urgently requested!

Thank you so much for your faithful prayer and financial support! Thanks for laboring together with us. The harvest **bears your names** as well. Continue praying that the flow of the Gospel Message continues until the land is well watered!
